Date	31 OCTOBER 2022
TEAM ID	PNT2022TMID42167
Project Name	IoT Based smart crop Protection system for agriculture

STEP1: Download and Install NODE JS.

The screenshot shows the Node.js Downloads page. At the top is a dark navigation bar with the Node.js logo and links: HOME, ABOUT, DOWNLOADS, DOCS, GET INVOLVED, SECURITY, CERTIFICATION, and NEWS. Below the navigation bar, the 'Downloads' section is highlighted. It states 'Latest LTS Version: 18.12.1 (includes npm 8.19.2)' and 'Download the Node.js source code or a pre-built installer for your platform, and start developing today.' The main content area is divided into two columns: 'LTS Recommended For Most Users' and 'Current Latest Features'. Under 'LTS', there are three options: 'Windows Installer' (node-v18.12.1-v64.msi), 'macOS Installer' (node-v18.12.1.pkg), and 'Source Code' (node-v18.12.1.tar.gz). Below these, a list of download links is provided: 'Windows Installer (.msi)', 'Windows Binary (.zip)', 'macOS Installer (.pkg)', 'macOS Binary (.tar.gz)', and 'Linux Binaries (x64)'. To the right of the download links is a table showing the available architectures for each platform.

Platform	Architecture	Download Link
Windows	32-bit	node-v18.12.1-v64.msi
	64-bit	node-v18.12.1-v64.msi
macOS	32-bit	node-v18.12.1.pkg
	64-bit	node-v18.12.1.pkg
Linux	64-bit	node-v18.12.1.tar.gz
	ARM64	node-v18.12.1.tar.gz

STEP2: Setup node.js and configure command prompt for error check.open node-red from the generated link.

-----
Your flow credentials file is encrypted using a system-generated key.

If the system-generated key is lost for any reason, your credentials
file will not be recoverable, you will have to delete it and re-enter
your credentials.

You should set your own key using the 'credentialSecret' option in
your settings file. Node-RED will then re-encrypt your credentials
file using your chosen key the next time you deploy a change.
